

Alex Fallaw

Graphic Designer

I'm a graphic design and computer science student at the University of Illinois Urbana-Champaign. I've been passionate about art for almost a decade, experimenting with several different art forms over the years. I have also come to love coding, both web design and program development. I really enjoy the problem-solving involved in programming, and I appreciate the flexibility it gives me in manifesting my designs. I'm looking for an internship or entry-level job in web or graphic design.

Skill Highlights
